

**VILLAGE OF BARTLETT
ECONOMIC DEVELOPMENT COMMISSION**

MEETING AGENDA

**Meeting to be held at:
BARTLETT VILLAGE HALL
228 South Main Street, Bartlett, IL
December 9, 2019
7:00 PM**

1. Call to Order
2. Roll Call
3. Approval of the November 11, 2019 meeting minutes
4. Public Comment
5. BEDA Application for 120 Live
6. New Business Update
7. Adjournment

**Minutes
November 11th, 2019
Village of Bartlett
Economic Development Commission**

1) Call to Order

G. Kubaszko called the meeting to order at 7:02 pm.

2) Roll Call

Present: K Erickson, M Hughes, G. Kubaszko, J. LaPorte, R. Perri, T. Smodilla

Absent: N. Gudenkauf, A. Lewensky, S. Gandsey

**Also Present: T. Fradin, Economic Development Coordinator;
S. Skrycki, Assistant Village Administrator;
J. Dienberg, Management Analyst**

3) Approval of Minutes

A motion was made to approve the minutes from the September 9th, 2019 meeting.

Motioned by: R. Perri

Seconded by: K. Erickson

Motion Carried

4) Public Comment

None

5) Welcome New Commissioner Kirsten Erickson

G. Kubaszko welcomed Commissioner Kirsten Erickson to the EDC. He stated that she had previously served 9 years as a commissioner, and that they are happy to have her back.

K Erickson shared that she has been a resident of Bartlett for 21 years and that she is currently the vice president of West Suburban Bank, overseeing 10 branches as a regional manager.

6) Recognize Commissioner Gerald Kubaszko for 40 Years

T. Fradin recognized commissioner recognized Commissioner Gerald Kubaszko for his 40 years of service on the EDC. He thanked Jerry for all his work through the years through many milestones. Mr. Fradin presented the Commissioner with a gift on behalf of the Village.

G. Kubaszko thanked Mr. Fradin for the recognition.

T. Smodilla took a moment to thank Jerry for his help and the ability to pick his brain over the years. She stated that while they haven't always agreed, she has appreciated his spirit of camaraderie over the last nine years.

7) Access O'Hare West Update

T. Fradin shared an update in the effort to meet several of the goals in both the Village's Strategic Plan as well as the EDC's 2016-2020 Marketing Plan, sharing that the Village has increased marketing of undeveloped land sites in the Village and has joined a consortium of nine other area communities to market these sites.

Specific to the Marketing Plan, several of the goals pertain to seeking economic development of sites along commercial corridors. Another goal of the marketing plan is to increase participation in ICSC.

In an effort to work more collaboratively with area communities situated along the I-390 corridor, Staff has joined with these other communities to market the area at trade shows including RECon, ICSC's largest annual trade show held at the Las Vegas convention center, and the Chicago Deal Making show held annually at Navy Pier.

The ten communities that comprise Access O'Hare West (AOW) include Bartlett, Bensenville, Bloomingdale, Elk Grove Village, Elmhurst, Hanover Park, Itasca, Roselle, Schaumburg and Wood Dale. Tony then asked if the commissioner's had any questions.

T. Smodilla asked if the Village has had any projects closed or finalized that directly came from this partnership at this point.

T. Fradin stated that Bartlett has not had a property closed on as a direct result of this venture, but did say that staff has engaged with multiple prospects. He added that they are also engaging with multifamily home developers and industrial developers, not just retail. He added that there are many good leads, just nothing that has finalized.

M. Hughes asked if there was a reason that Streamwood was not a part of this group as well as about how difficult it is dealing with the competitiveness of the group.

T. Fradin said that there is no particular reason, adding that Mayor Craig of Hanover Park really led the charge and invited the communities. He added that some communities were invited but declined, but added that he can only speak for Bartlett. He added that the communities are very cooperative and work to get the right projects to the appropriate communities.

T. Smodilla asked if any of the other communities have similar marketing plans to Elk Grove Village's "Maker's Wanted" campaign that the Village could glean some detail from that could be unique to Bartlett. She specified that Bartlett could take something that it has a niche in, using the example of the food industry growing in Brewster Creek.

T. Fradin responded that that is an interesting point, he stated that each community has something a little bit different, adding that Bartlett is much more robust in their marketing than some communities, but on the other hand doesn't reach the level of Elk Grove Village. He

stated that the Village is in that middle space with their marketing efforts. In terms of the specific niche, Mr. Fradin stated they are always marketing the Village's strengths at these shows, looking to find the best industries for the sites that would suit them best. He added that the best example of this is when the Village showcases its Foreign Direct Investment at specific shows, trying to bring in international companies in, specifically in the food niche.

8) Small Business Saturday November 30th

T. Fradin reminded the commissioners of the upcoming American shopping event held on the Saturday after US Thanksgiving during one of the busiest shopping periods of the year, Small Business Saturday. This year, Small Business Saturday will be on November 30th.

The event was initiated by American Express ten years ago via a nationwide radio and television advertising campaign. American Express publicized the initiative using social media, advertising, and public relations. Many local politicians and small business groups in the United States issued proclamations concerning the campaign, which generated more than one million Facebook "like" registrations and nearly 30,000 tweets under the hashtags #smallbusinessaturday and #smallbizaturday.

Unlike several surrounding municipalities, Bartlett does not have big-box retailers like Target, Wal-Mart, Meijer or Costco, nor does the Village have a major shopping mall like Woodfield Mall, Stratford Square or Charlestown Mall.

What Bartlett does have is an interesting mix of small businesses, many of them sole proprietorships, and several of which have opened over the past few years.

With that in mind, Staff has requested promotional items from Small Business Saturday at American Express to distribute to small businesses in the downtown area including tote bags, stickers, banners, buttons and door mats for them to display between now and Small Business Saturday.

Additionally, Staff will be promoting Small Business Saturday via cable television commercials and multiple posts on the Discover Bartlett Facebook page, the Village's Twitter account, website, and cable station.

As members of the EDC, Tony asked that the commissioners share these posts on their own social media and generally urge their contacts to shop small in Bartlett if possible this holiday season.

T. Fradin then showed the ad that Village Staff Produced for Small Business Saturday.

T. Smodilla recommended that staff remove the Village logo and replace it with the name of the establishment being advertised.

T. Fradin stated that the video is already sent over to Comcast for production.

T. Smodilla added that the idea of “shop small” should be promoted year round and that staff should add some marketing materials to the train station. She suggested that this be a specific branding effort by the Village year round, using visuals to help plant a seed in residents.

S. Skrycki stated that the materials in front of them would be taken to the train station tomorrow. He also added that staff has worked with local businesses through the village’s email blasts and by offering up a series of breakfast seminars to help small businesses, as well as the Business Spotlight Videos.

T. Fradin stated that staff does do that marketing as well as the chamber. He stated the Village is constantly marketing all of Bartlett’s Businesses all year through all of their events.

M. Hughes added that it could be beneficial to look back on the shop local campaigns during the recession.

T. Fradin agreed, pointing out the former 3/50 campaign that urged residents to spend \$50 a month at local businesses. He added that with that staff is continually sharing the concept of shop local. He added that part of the effectiveness of Small Business Saturday is the direct national focus it has for that time of year.

K Erickson suggested that staff inform the businesses about the American Express Marketing materials so that they can be proactive with it.

R. Perri suggested that the small businesses put out coupons and sales to help advertise, similar to how the larger businesses advertise black Friday.

T. Fradin stated that staff share the ones that they know about, however that it is ultimately up to the business.

J LaPorte stated that the businesses that do well are doing their own marketing, and added that a lot of the responsibility falls on the business owner, adding that the Village shouldn’t carry the majority of that burden. He added that he is a big fan of the 3/50 program.

9) Email Marketing Seminar November 13th

T. Fradin shared that earlier this year, he attended a Google seminar led by digital marketing expert Nathan Misirian, President of Autumn Consulting, at the Kane County administration building.

He added that he was sufficiently impressed to invite Mr. Misirian to present a similar seminar at Bartlett Hills this past July. Staff invited all Bartlett businesses via an email blast and also partnered with the Chamber of Commerce. At the time, Mr. Misirian worked with the newly-opened Bartlett Tap to improve its social media presence and Google ranking.

Continuing the Village’s business assistance efforts, we are bringing him back this month in conjunction with the Chamber of Commerce to present a seminar on improving email marketing. Once again, attendance is free of charge and all businesses in the community are invited.

For this program, Mr. Misirian is working with the Chamber of Commerce, who in turn will be utilizing the successful email marketing strategies to, in turn, better assist the local business community.

T. Fradin encouraged EDC Commissioners to attend, adding that registration was still open.

K. Erickson stated that she would like to attend if there is still room.

10) New Business Update

T. Fradin outlined the numerous businesses that have opened in recent months. In the Streets of Bartlett Center Armanetti's and D'Licious Crepes & Roti opened, to be followed shortly by "One Taco Dos Tequilas" and "Cherry on Top". In the Galleria of Bartlett Shopping center both Beef Shack and 2x20 fitness have opened. Gambits has opened in the Bartlett Place Shopping Center. Cathay Industries opened their facility in Blue Heron Business Park and the two spec buildings in Brewster Creek Logistics Park have begun construction.

T. Smodilla asked about McKesson's progress.

T. Fradin stated that they are doing some land preparation, and stated that they have until around fall of 2021 to be operational per their incentive package.

M. Hughes asked for an update on MORE Brewing

S. Skrycki stated that staff spoke with them about a week ago, and it is looking like construction will begin in early spring.

J. LaPorte asked about 120 Bartlett Ave.

S. Skrycki said that they have plan commission and the Village Board for their site plan coming up, and added that they will most likely be in front of the EDC in December for a BEDA Grant.

J. LaPorte asked about the out lot at Streets of Bartlett.

T. Fradin stated that staff and the owners of the property continuously market the space, looking for potential tenants. However, it currently is moving slowly and there is no potential tenant in place at this time.

S. Skrycki stated that the owners are mainly focused on filling the large vacancy in the center, and will then shift to the out lot once that is filled, which will make the property much more attractive.

M. Hughes asked about the rebranding of the center, stating that many businesses have items that still say "Bartlett Plaza."

T. Fradin stated that things like that take time, and as they run out of inventory businesses will then switch their marketing materials to the new name. He said the best way to help is to share by word of mouth, and to help residents get used to the new name.

11) Adjournment

A motion was made to adjourn the meeting.

Motioned by: T. Smodilla

Seconded: M. Hughes

Motion Carried. The Meeting Adjourned at 8:18 PM

ECONOMIC DEVELOPMENT MEMORANDUM

DATE: December 3, 2019
TO: Chairman and Members of the Economic Development Commission
FROM: Tony Fradin, Economic Development Coordinator *TF*
RE: 120 Live BEDA Application

APPLICANT: Mary Ann & Dana Bollman MAB DDB Corp. d/b/a 120 Live

BACKGROUND:

The building located at 120 W. Bartlett Avenue was constructed circa 1911 by Herman Schnadt, who purchased this lot and the adjoining one from Charles C. Schultz, a hardware store operator (current site of TL's Four Seasons).

Over the decades, 120 W. has been home to many businesses including law offices, Bartlett Glass & Mirror, Poundcakes Bakery and, most recently, the showroom for Autumn Builders/Marre Development.

The building had been made available for purchase by the Marres, and staff had met with and worked with several potential owners prior to the Bollman family, who recently purchased the building.

In working toward the continued development of the downtown area as a work/live/play area with a vibrant atmosphere, staff has worked with the applicants and encouraged them to redevelop the building into a restaurant, bar and grill with an outdoor beer garden.

120 LIVE:

In their BEDA application, mother and daughter Mary Ann Bollman & Dana Bollman detail their family's operation of a successful bar, restaurant, karaoke lounge and large outdoor patio in Elgin for thirty-three years.

Their business plan details their desire to open a new and improved business in downtown Bartlett that will be open daily and nightly featuring space for an indoor stage, pub seating, a bar and DJ booth.

120 Live's menu will consist of a wide variety of appetizers, salads, wraps, burgers, chicken sandwiches, homemade pizzas and other specials.

The outdoor patio will be approximately 2,000 square feet and will include a bar, garden seating and tables to dine at. There will be TVs throughout both the indoor and outdoor spaces.

Due to the former use as a showroom with offices, the Bollmans' plan on completing extensive build-out including, but not limited to, carpentry & building, electrical

upgrades, plumbing upgrades including bathroom expansion and additions. They will additionally be installing a state-of-the-art beer glycol system, additional heating and air conditioning units, a commercial kitchen hood system, required Fire Code upgrades and a grease disposal system.

The applicant, Mary Ann Bollman, estimated the total project cost as \$600,000; however, that figure includes the building purchase price which is not an eligible cost per the BEDA program.

The total for all contracts and estimates for this project attached in the application amounts to \$375,456 and covers every aspect of the project.

RECOMMENDATION:

Many aspects of the Village's Strategic Plan and the EDC's 2016-2020 Marketing Plan reference attracting business and investment into the Downtown and throughout the Village. Three of the items in the Strategic Plan include:

- ✓ *Develop a business recruitment strategy to attract developers to invest in the downtown area and provide options for businesses to locate to Bartlett.*
- ✓ *Work to improve retail business profile in the Village.*
- ✓ *Revisit, refine and execute the Village's overall economic development incentives.*

This property, last used as an office and a showroom, is a good example of what the BEDA program was created for – converting the real estate into a sales tax generating business that will increase the viability and offerings of downtown Bartlett.

Ms. Bollman has requested the maximum BEDA grant amount of \$50,000 for this project.

This is the third BEDA application for this fiscal year, which has been funded with a \$250,000 line item. Mr. Rafidia was approved for a \$50,000 grant and the Still will be before the Village Board tomorrow night for a \$25,000 grant, increased due to additional work and expenditures since appearing before the EDC in August.

Thus, staff is recommending a BEDA grant amount of **\$50,000** to Mary Ann and Dana Bollman, subject to documentation of completing the numerous upgrades as detailed in their application and once 120 Live meets all current Building and Fire Code requirements and passes final inspection.

A \$50,000 grant amounts to 13% of the project cost for upgrading 120 W. Bartlett Avenue and converting the office to a bar and grill with space for live entertainment. A maximum grant would have earmarked exactly half of the \$250,000 for this fiscal year with four months to go. Staff is anticipating several more applications of this magnitude in the coming months which may allocate the full amount prior to next April.

[REDACTED]

Application Statement (Read and Sign Below)

I hereby make application to participate in the Bartlett Economic Development Assistance (BEDA) program. In making this application I understand that the purpose of BEDA is to help encourage and leverage private investment in the Village's business community and help my business bring an underperforming property into more productive use.

I understand that prior to commencing any work, the Village must first approve both my participation and proposed scope of work for the project. Applicants must meet with Economic Development staff prior to paying for improvements in order to review how much, if any, the Village may reimburse for the project.

I understand that all improvements made through the help of BEDA must be in accordance with all Village plans and codes. Moreover, as a condition of approval, I understand the Village may require changes to the scope of work I am proposing. I further understand that any work started or completed prior to approval of the project and my participation in the BEDA program is not eligible for reimbursement.

In making this application, I understand that the BEDA program is competitive, funds are limited and selection for participation is at the sole discretion of the Village of Bartlett. I understand that the Village will review my application and at the Village's discretion may reject or approve my participation in the program. I recognize that a project that enhances the Village's business climate by returning an underutilized property into economic productivity, increases local employment opportunities and includes a larger percentage of private investment than public stands a greater chance of being funded by the Village.

I also understand that if selected for this program, the Village will establish a maximum grant award for the project and this may be at a lower amount than requested or less than half of the anticipated cost of the project. I further understand that BEDA operates as a rebate program and, therefore, if selected for participation, Village funds will be disbursed to me at the conclusion of the work, after submittals by me of copies of all bills and satisfactory evidence of their payment, either by lien waivers or bills stamped "Paid" by all contractors. I understand that the actual rebate amount will be calculated at 50% of the documented actual costs by me for eligible expenses to complete the agreed upon improvements, up to the maximum grant amount awarded by the Village for the project.

By signing this application, I hereby acknowledge that I have read the above statement and understand these important features about the BEDA Program.

DATE: 1/15/16

Mary Ann Bollman & Dana Bollman
MAB DDB CORP. d/b/a
120 Live
120 West Bartlett Ave.

To offer some personal background information, we are a mother-daughter team. Mary Ann previously owned and operated a successful bar, restaurant, karaoke lounge & large outdoor patio in Elgin for 33 years. She was involved in every daily aspect of the business from bookkeeping to creating a menu for our customers from her homemade recipes.

Dana is a licensed certified shorthand reporter. I have been employed by the State of Illinois for 20 years at the Kane County Judicial Center but I have also been a part of my parents' bar/restaurant for almost 30 years. I started working through summers at the age of 14 and weekends as the years progressed. I as well worked hands-on in every aspect of the business.

Most people ask us why we are getting back into the business and the reason is simple for us. We miss our customers! This business has always been a part of who we are, what makes us happy & what we are good at. We have recently been contacted by numerous past customers who are just as excited as we are for our Bartlett opening.

When we first visited 120 W. Bartlett Ave., we immediately felt inspired. It is what we have been looking for for the past couple of years. We closed in Elgin due to an eminent domain seizure of our parking lot. We were forced to close the doors and at the time we all thought this was a good time to retire the family business. As the last couple of years passed, running into past customers, talking

with old employees and reminiscing ourselves, we decided to start looking at different locations for the possibility of re-opening.

Our business is essentially three different parts. We will have our inside bar/restaurant that will be open daily and nightly every day. Our back room/music venue will feature a stage, pub seating, bar and DJ booth. We will open for karaoke, live music and private parties. Our patio will be approximately 2,000 square feet. It will include a bar, patio and garden seating, along with tables to enjoy a pizza or burger outside. We will have TVs throughout the indoor and outdoor for sporting events.

Our menu will include an assortment of appetizers, including homemade chicken wings, salads & wraps, pub burgers & chicken sandwiches, weekly specials and most popular is our homemade special recipe pizzas.

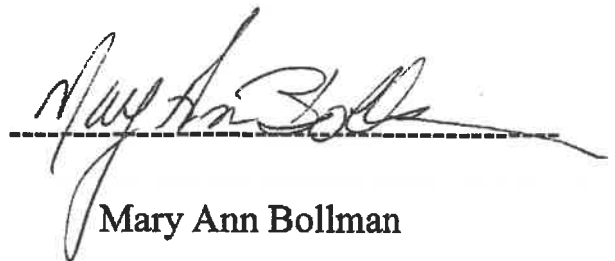

Since the building was previously an office and garage space, our project build-out is extensive. It will include carpentry & building, electrical, extensive plumbing to include bathroom expansion and additions. We will also be installing a state of the art beer glycol system, additional heating and air conditioning units, commercial kitchen hood system with the required fire safety ANSUL system and the required grease disposal system.

We are currently in the process of purchasing and securing all of the commercial kitchen equipment our project requires. We have already spent over

\$89,000 for kitchen equipment, over \$77,000 in bar equipment and \$21,000 in tables, chairs and bar stools. I will attach all applicable proof for your review. We estimate our costs will surpass \$500,000.

I am requesting the full \$50,000 in our BEDA application. These funds will be used to purchase glassware, flatware, serving dishes and plates, as well as inventory that we will need to purchase to get open. We are hoping to be open by the 1st of the year!

We, as a family, have high hopes and expectations for this Bartlett project. We are excited and proud to become part of the community. We hope to greatly contribute to the growth of downtown Bartlett and the surrounding community and businesses.

FOR:
Bollman Bar
Bartlett, IL

Thank you for the opportunity of presenting this proposal for the Electrical systems. Our proposal is based on our interpretation of information and blueprints we received from you. The following is a description of the equipment to be supplied, and work to be performed.

1. Provide and install new 200A 3ph 42 pos electrical panel
2. Provide and install Conduit and power to all food equipment per plan
3. Provide and install Conduit and power for all receptacles per plan
4. Provide and install Conduit and power to RTU Units, exhaust fans and Make up air units
5. Provide and install Shunt trip breakers for food Equipment per plan
6. Provide and install Conduit and power for all lighting per plan including exits and EM lights
7. Provide and install Switches and Dimmers for lighting per plan
8. Provide and install Power to Captive Air unit for interlocking the hood and Make-up air unit
9. Provide and install power for new coolers and freezers
10. Provide and install Power/Data lines for gaming machines

Exclusions

1. GC shall provide saw cut and patching unless instructed otherwise
2. GC is responsible for Permit fees that may apply

Our estimate for the above equipment, Light Fixtures, materials and labor is **\$37,000.00**

I hope this is to your complete satisfaction and look forward to doing business with you in the very near future. If you have any questions, please do not hesitate to call.

Thanks,

Brian Harmon

NICOR

Nicor Gas Proposal Contract / Projects Version 10-21-16, 3:10

Nicor Gas proposes to furnish the necessary labor and material to do the work described below.

Work for Customer or Contractor James Bollman		Submitted by: Devon Kniffin	Date: 09/11/19	Job No: DK19293
Fax Number:	Attn:	Email Address danabollman8@yahoo.com	Attn:	Account No. 77-85-29-3195 3
Service Address: 120 W Bartlett Ave		Service City Bartlett	Service State IL	Service Zip 60103
Mailing Address SAME		Mailing City	Mailing State IL	Mailing Zip

Charges

	Base Charge:	\$	1,273.85
	State Utility Tax:	\$	1.27
Bartlett	Municipal Tax:	\$	-
Payment in full to be made on acceptance		Total Charge:	\$ 1,275.12

Job Scope:

Nicor will supply labor, material and transportation to cut/cap the existing 42' 1/2" pe service and run new 178' 1" PE service to new marked or stubbed out location on back left side of building and set new 800tc meter @lp supporting new gas load of 1,225 million btus @lp for cooking, heating and water heating equipment. Customer/contractor is responsible for the final connection or tie-in of there fuel line into meter at new location.

Customer/contractor will need to be on site on the date work is scheduled to be completed. Scheduling will begin when payment in full and a signed contract has been received.

Work to be done on: Service Main Meter Other

Nicor Gas is not responsible for restoration of landscaping/paving on private property.

The sketch, if any, appearing on the reverse side hereof, or attached hereto, is hereby made a part of this Proposal/Contract. Work will be done during regular working hours except upon the Customers'/Contractor's specific request and agreement to pay for overtime work. All material and equipment from the main to and including the meter is the property of the Company. All material and equipment beyond the meter is the property of the Utility Customer and is to be maintained and repaired at the Utility Customer's expense.

Except in case of emergency, no repairs chargeable to the Utility Customer shall be made other than upon the Utility Customer's written order. The Utility Customer agrees that the Company shall have the right to enter the Utility Customer's premises at all reasonable hours to make the necessary repairs to piping, regulators, meters and other equipment connected to the Company's system.

The Company shall not be responsible for any damages resulting from delay in completing the above work, where such delay is due to casualties, labor disputes, or other causes beyond the reasonable control of the Company. The Customer/Contractor agrees to indemnify and hold harmless the Company against all costs, damages, liabilities and expenses (including those incurred in connection with any claim, suit or proceeding) arising out of the Work, except when such costs, damages, liabilities and expenses arise solely from the negligence of the Company.

This proposal shall be void unless accepted within 30 days of its presentment. This Proposal contains the entire understanding between the parties with respect to the subject matter hereof, and may be modified, amended or mutually rescinded only by a written instrument executed by the parties hereto. This proposal, as submitted, becomes a Contract when accepted by the Customer/Contractor and approved by the Company.

To Pay by Phone Using a Credit Card or Check (convenience fee applies):

Please call 1-888-642-6748, and be sure to get a confirmation number. After making your payment, please scan and email your signed contract, including your confirmation number, dkniffi@southernco.com, or fax to 847-888-1544.

To Pay by Mail:

If you prefer, please send your payment and signed contract to Nicor Gas Bill Payment Center, P.O. Box 1630, Aurora, IL 60507-1630.
